EDUCATION

International Islamic University Chittagong — Chittagong, Bangladesh
Bachelor of Science in Computer Science — *Aug. 2023 – current*

EXPERIENCE

FocusBear — Mount Waverley, Victoria 3149. Australia
Mobile App Developer Intern — *Nov 2025 – Jan 2026*

- **React Native Development**: Built and optimized productivity-focused mobile features using React Native.
- **Performance Optimization**: Improved application performance and responsiveness through efficient state management and rendering strategies.
- **Team Collaboration**: Worked closely with design and engineering teams to implement modern UI/UX patterns.

PROJECTS

Appwrite Native — React Native, Appwrite
Unofficial Mobile Client — *2026*

- **Developer Tooling**: Built a native mobile client to manage Appwrite projects efficiently.
- **Improved UX**: Designed a smoother mobile-first experience for backend management.

ClassRep — Next.js, Appwrite
Classroom Management System — *2026*

- **Real-time System**: Implemented real-time classroom interactions between students and teachers.
- **Full-stack Architecture**: Integrated backend authentication, database, and frontend dashboard system.

Bridge Marketing — Next.js
Business Landing Page — *2026*

- **High-Converting UI**: Designed and developed a modern marketing landing page with strong animation-driven engagement.
- **Performance Focused**: Optimized for SEO, responsiveness, and smooth UI transitions.

TravX — React Native, Appwrite
Local Routing Application — *2024*

- **Navigation System**: Developed routing features with custom path finding algorithm , map integration and local fare data support.

PRIM — React Native, Appwrite
GitHub Assistant Web App — *2025*

- **Pull Request Optimization**: Developed tools for documenting, reviewing, and improving GitHub pull requests.

Crimson — React Native, Appwrite
Blood Donation App — *2024*

- **Donor Matching**: Built a mobile platform connecting blood donors with recipients efficiently.

Chat Application — C++, Qt
University Project — *2023*

- **Desktop Messaging**: Built a secure real-time chat application using C++ and Qt framework.

PROGRAMMING SKILLS

- **Languages**: C, C++, Java, JavaScript, SQL
Frontend: Next.js, React, React Native, TailwindCSS, Expo, GSAP, Framer Motion, Qt
Backend: Node.js
Database: MySQL, MongoDB, Appwrite
Tools: MapTiler Server, OSM, Figma
